MEMORANDUM FOR THE RECORD

STATINTL

SUBJECT: Pollution [REDACTED]

STATINTL

STATINTL  
STATINTL

1. [REDACTED] OL/LSD, is aware of our informing [REDACTED] of this problem and of our expecting a proposal in their report. Because of this understanding, he is leaving the problem dormant for a simple solution is not readily available which could be accomplished in house.

2. The filter, drain grate, recently installed by Group Forces is inadequate because the run-off is in solution and will require a filter to remove.

3. I believe we have two options open to us, we can wait for HDR's proposal or if the problem warrants more immediate action we could contract with an outside A&E for a proposal.

STATINT

Tony,  
Per our discussions at the prayer meeting, I have contacted [REDACTED] of HDR, and asked him to review the problem and be in a position to make a firm recommendation on how to correct the problem. Dick said he would have this done by HDR's briefing on the 9th. Dick also will be prepared to give a proposal on the cost to have HDR do the design and also provide an estimate for the construction costs. As we decided to have the design done to a task order contract, I will have to make arrangements through Mr. Van Weaver, I guess, to get the contract accomplished through our design.
